These materials were produced by Educational Testing Service[®] (ETS[®]), which develops and administers the examinations of the Advanced Placement Program for the College Board. The College Board and Educational Testing Service (ETS) are dedicated to the principle of equal opportunity, and their programs, services, and employment policies are guided by that principle.

The College Board is a national nonprofit membership association dedicated to preparing, inspiring, and connecting students to college and opportunity. Founded in 1900, the association is composed of more than 4,200 schools, colleges, universities, and other educational organizations. Each year, the College Board serves over three million students and their parents, 22,000 high schools, and 3,500 colleges, through major programs and services in college admission, guidance, assessment, financial aid, enrollment, and teaching and learning. Among its best-known programs are the SAT[®], the PSAT/NMSQT[®], and the Advanced Placement Program[®] (AP[®]). The College Board is committed to the principles of equity and excellence, and that commitment is embodied in all of its programs, services, activities, and concerns.

2002 AP[®] MACROECONOMICS FREE-RESPONSE QUESTIONS (Form B)

MACROECONOMICS

Section II

Planning Time—10 minutes

Writing Time—50 minutes

Directions: You have fifty minutes to answer all three of the following questions. It is suggested that you spend approximately half your time on the first question and divide the remaining time equally between the next two questions. In answering the questions, you should emphasize the line of reasoning that generated your results; it is not enough to list the results of your analysis. Include correctly labeled diagrams, if useful or required, in explaining your answers. A correctly labeled diagram must have all axes and curves clearly labeled and must show directional changes.

1. (a) Using a correctly labeled aggregate supply and aggregate demand graph, show the impact of a sudden, large decrease in private investment spending on each of the following.
 - (i) Output
 - (ii) Price level
- (b) Using the results in part (a), explain how employment is affected.
- (c) Identify one specific fiscal policy that might be implemented to offset the effects of the decrease in investment, and explain how the policy would affect each of the following in the short run.
 - (i) Aggregate demand
 - (ii) Output and the price level
 - (iii) Real interest rates
- (d) Identify an open-market operation that the central bank might implement to offset the effects of the decrease in investment, and explain how the policy would affect each of the following in the short run.
 - (i) Real interest rates
 - (ii) Aggregate demand
 - (iii) Output and the price level
- (e) If the central bank continues the open-market operation described in (d), explain the long-run effects on each of the following.
 - (i) Inflation
 - (ii) Value of the domestic currency in foreign exchange markets
