Dear Mr. Rhyl Daraman,

I hope this message finds you well. My name is John Kyle Cuarteros, a third-year Bachelor of Science in Computer Science student at University of Science and Technology of Southern Philippines. I am writing to express my sincere interest in securing an On-the-Job Training (OJT) placement at your esteemed company.

With a solid academic background in computer science and a strong desire to apply my learning in a real-world setting, I am eager to contribute to your organization while gaining valuable industry experience. I have developed practical skills in Python, Java, and C++, along with a solid understanding of data structures, algorithms, and web development. My current interests lie in Research and Development, cybersecurity, or data analysis, which I understand are aligned with the innovative work your company undertakes.

Beyond technical skills, I am a proactive learner with a keen attention to detail and a problem-solving mindset. I am comfortable using tools such as Git, Visual Studio Code, and Microsoft Office Suite, and I am eager to adapt to new technologies and team workflows. I am confident in my ability to learn quickly and collaborate effectively within a professional setting.

Attached to this email is my resume, which includes further information about my academic background, relevant coursework, and personal projects. I would greatly appreciate the opportunity to discuss how I can be an asset to your team and how this training can support my academic and professional growth.

Thank you very much for considering my application. I am available at your convenience for an interview and look forward to the opportunity to contribute meaningfully to your organization.

Sincerely,
John Kyle B. Cuarteros

Dear John Kyle,

Thank you for your interest in applying for an internship at SKY Print Studio, and please accept our sincerest apologies for the delayed response. We have been in the process of streamlining our operations with a limited workforce, which has unfortunately impacted our response time to inquiries.

We truly appreciate your enthusiasm and initiative in seeking real-world experience, and we commend your dedication as a third-year Computer Science student at the University of Science and Technology of Southern Philippines.

After careful review of your application, we regret to inform you that your current skills and academic background do not align closely with the core functions and requirements of our studio. SKY Print Studio primarily focuses on printing and publication services, as well as studio photography — including yearbook production, magazines, digital print products, and offset printing.

While we do have occasional needs related to IT support, website development, and digital marketing, these areas are not currently a significant part of our daily operations. As such, we feel we would not be able to provide you with the kind of meaningful, hands-on experience that would truly benefit your growth and learning in your chosen field.

We appreciate the time and effort you put into your application and wish you the very best in finding an internship that will help you grow and develop your skills in the tech industry. We hope you continue to pursue opportunities that align closely with your goals and passion.

Thank you once again for considering SKY Print Studio.

Warm regards,

John Kyle Cuarteros <cuarteros.johnkyle12@gmail.com>
